

ERASMUS+
KA2: Strategic partnership
RESEARCH AND DEVELOPMENT PROJECT:
QUALITY MENTORSHIP FOR DEVELOPING COMPETENT NURSING STUDENTS

**COURSE FRAMEWORK OF
ADVANCED MENTORSHIP COMPETENCES**

The course framework has been developed in collaboration of five EU organizations.

The course framework of advanced mentorship competencies is a pilot testing I. version. Please note that the version will be modified upon completion of the pilot in four European Union countries participating in the project according to the evaluation of participants, teachers and project partners. The modifications will be completed according to the QualMent application.

The course framework was developed by:

College of Nursing in Celje – coordinator of the course

dr. Bojana Filej, dr. Nadja Plazar, dr. Vesna Čuk, Katja Esih, mag. Jerneja Meža, Alenka Presker Planko, dr. Boris Miha Kaučič

University of Alicante – module I

Universitat d'Alacant
Universidad de Alicante

dr. M Flores Vizcaya-Moreno, dr. Rosa M Pérez-Cañaveras

University of Oulu – module II

Ashlee Oikarainen, dr. Anna-Maria Tuomikoski, dr. Maria Kääriäinen, dr. Marco Tomietto, dr. Kristina Mikkonen

Lithuanian University of Health Sciences –module III

dr. Olga Riklikienė, Erika Juskauskienė

European Federation of Nursing Associations – chief advisor for implementation of the EU directive

dr. Paul De Raeve

About the QualMent project

The College of Nursing in Celje is the coordinator of the European development and research project Quality mentoring for developing competent nursing students (QualMent), which was selected under the Erasmus+ Program, Strategic Partnerships in Higher Education.

The project includes as partners: The College of Nursing in Celje, University of Oulu (Finland), University of Health Sciences (Lithuania), University of Alicante (Spain), and European Federation of Nursing Associations (EFN).

The project will be conducted during the timeframe of 1st of September 2018 and 31st of December 2020.

The project is intended for the development of an education of clinical mentors with the objective to increase the quality of clinical practice for undergraduate nursing students, which complies with the EU directive. The project has three main outcomes:

1. to develop and validate an evidence-based clinical mentors' competence model in Europe;
2. to develop, implement and evaluate the effect of a clinical mentoring educational intervention in four European Union (EU) countries (Finland, Lithuania, Slovenia and Spain);
3. to develop mentoring international guidelines on clinical practice of nursing students.

MODULE I/NAME OF THE MODULE:

INTRODUCTION TO MENTORSHIP IN NURSING

Aims of the education module:

- To gain knowledge and understanding about mentorship traditions, principals, concepts and the role of different actors in mentoring.
- To understand and raise awareness of the importance and the requirements for clinical training for nursing students of the EU Directive 2013/55/EU and EFN Competency framework to guide the implementation of Article 31 listed competencies.
- To gain knowledge about didactical strategies and teaching methods for good practice in mentoring.
- To gain knowledge about the use of learning and knowledge technologies (LKT) in mentoring.
- To improve the mentoring competence of clinical mentors in Europe.

Mandatory learning material for the module:

- European Federation of Nurses, EFN, 2015. EFN competency framework for mutual recognition of professional qualifications Directive 2005/36/EC, amended by Directive 2013/55/EU. EFN Guideline to Implement Article 31 Into National Nurses' Education Programmes. Available at: http://www.efnweb.be/?page_id=6897

MODULE II/NAME OF THE MODULE:

CULTURAL AND LINGUISTICAL DIVERSITY IN THE MENTORING OF NURSING STUDENTS

Aims of the education module:

- To understand cultural diversity in health and social care ecosystems and the moral and ethical responsibility of nurses to provide and advocate for care that is culturally competent.
- To understand the concept of cultural competence in mentoring.
- To explore one's own value and belief system and to understand the importance of cultural acceptance and willingness to learn about the beliefs and practices of others.
- To gain knowledge on the effects of culture on patterns of verbal and nonverbal communication and to develop skills to overcome communication barriers and differences.
- To gain the skills needed to maintain a safe, culturally sensitive clinical learning environment that supports the effective learning process of culturally diverse students.

Mandatory learning material for the module:

- Evidence tip based on: Mikkonen, K., Elo, S., Kuivila, H.-M., Tuomikoski, A.-M., Kääriäinen, M., 2016a. Culturally and linguistically diverse healthcare students' experiences of learning in a clinical environment: a systematic review of qualitative studies. *Int. J. Nurs. Stud.* 54, 173–187. <http://dx.doi.org/10.1016/j.ijnurstu.2015.06.004>
- Evidence tip based on: Mikkonen, K., Elo, S., Tuomikoski, A.-M., Kääriäinen, M., 2016b. Mentor experiences of international healthcare students' learning in a clinical environment: a systematic review. *Nurse Educ. Today*. 40, 87–94. <http://dx.doi.org/10.1016/j.nedt.2016.02.013>

MODULE III/NAME OF THE MODULE:

MENTORING COMPETENCE IN ASSESSMENT AND REFLECTIVE DISCUSSION

Aims of the education module:

- To understand the rationale for effective assessment of the level of students' achievements related to knowledge, skills and attitudes.
- To gain knowledge about the assessment process, assessment tools and assessment bias in the clinical education of nursing students.
- To acknowledge the importance of self-assessment and the student's responsibility in the assessment process.
- To comprehend the importance of learning from experience and the application of constructive feedback in assessing clinical education of nursing students.

Mandatory learning material for the module:
